HOLLAND BULB LIST

To our Customers:

We have just completed our arrangements with our Holland associates, to represent them in the United States, on all varieties of bulbs. We are mailing this tentative list without prices. However, in March, we are sending a descriptive list with established prices.

In view of increased exports from Holland to Great Britain, Russia and other countries, throughout the world, high quality bulbs will be scarce. We would recommend that you get your tentative orders in immediately reserving what you anticipate using, subject to your final confirmation, when definite prices are established. Our Prices will be very competitive and our quality tops.

All early orders will be put up in Holland and will be shipped direct to our customers from New York City, where we will have warehouse facilities for this purpose. In this way, we can serve the Eastern, Mid-western and Southeast customers without encumbering them with extra freight charges. However, all California orders will be combined in carload lots and redistributed from our San Francisco and Los Angeles warehouses.

Again, we assure you of the best quality bulbs and hope we may get your list of requirements at this time. When sending your list please indicate approximate sizes wanted.

Thanking you, we are

Cordially yours,
